

I COME FROM THE SUN: BANDINFO

The second these four extraordinary musicians from Leipzig, Germany, take the stage, alternative rock becomes fused with straight up, edgy grunge. With passion and perseverance, **I Come From The Sun** consistently go their own way. In the past few years, the band has created their own style, no doubt inspired by genre greats such as the Foo Fighters, Nirvana and 30 Seconds to Mars.

Cover Artwork „Bail Out“ 2015

The Suns have earned nationwide attention through their successful participation in various international band competitions. They made it to the World Final at both **Emergenza** and **Hard Rock Rising - The Global Battle of the Bands**. Singer Florian Becker was also awarded the "Best Singer Award" at the Emergenza World Final in 2012. In May 2015, the forward momentum of **I Come From The Sun** continued, reaching a new climax with the release of their debut album "**Bail Out**". Working almost completely on their own, the band created "Bail Out" in two months of recording and production work. None other than Grammy-Award-winner **Adam Ayan**, Mastering Engineer at Gateway Studios in Portland, added the finishing touches, perfecting the album's sound. Describing the result of this joint venture, Adam Ayan says: *"I Come From the Sun hit the mark both musically and sonically on this release. A great listen and a rocker from beginning to end!"*

The songs from the debut album "**Bail Out**" unmask humanity in the most vivid way. **I Come From The Sun** entwine emotions, ecstasy and pain, musically and almost playfully, creating a sound so wonderfully elegant, yet so incredibly intense. Going against the trend to artificially inflate

arrangements with the use of synthetic sound snippets, **I Come From The Sun** instead gets back to the roots of rock. Live, this manifests itself in a sweaty, authentic concert experience. Full of energy and determination, **I Come From The Sun** generate a blanket of sound formed from classic all-tube guitar riffs, straightforward bass and hard-hitting drums that penetrate the senses. Blaring their distinctive sound from the stage with tremendous force and due to their potent stage presence, **I Come From The Sun** is a sure bet, not only for regional organizers, but due to their impeccable stage presence, they are also a magnet for attention for festivals and clubs.
