

I COME FROM THE SUN: BANDINFO

The second these four extraordinary musicians from Leipzig, Germany, take the stage, alternative rock becomes fused with straight up, edgy grunge. With passion and perseverance, **I Come From The Sun** consistently go their own way. In the past few years, the band has created their own style, no doubt inspired by genre greats such as the Foo Fighters, Nirvana and 30 Seconds to Mars.

Cover Artwork „Bail Out“ 2015

The Suns have earned nationwide attention through their successful participation in various international band competitions. They made it to the World Final at both **Emergenza** and **Hard Rock Rising - The Global Battle of the Bands**. Singer Florian Becker was also awarded the "Best Singer Award" at the Emergenza World Final in 2012. The songs from the debut album "**Bail Out**" unmask humanity in the most vivid way. **I Come From The Sun** entwine emotions, ecstasy and pain, musically and almost playfully, creating a sound so wonderfully elegant, yet so incredibly intense.

Going against the trend to artificially inflate arrangements with the use of synthetic sound snippets, **I Come From The Sun** instead gets back to the roots of rock. Live, this manifests itself in a sweaty, authentic concert experience. Full of energy and determination, **I Come From The Sun** generate a blanket of sound formed from classic all-tube guitar riffs, straightforward bass and hard-hitting drums that penetrate the senses.
